

NAVED A.SAYYED Frontend Developer | React.js Developer

Nashik, Maharashtra | navedas9356@gmail.com | [LinkedIn](#) | [GitHub](#) | +91 9356559922

HIGHLIGHTS

- Final-year Computer Engineering student (SGPA: 9.4) with hands-on experience in **React Native (CLI & Expo), TypeScript, and modern JavaScript**, specializing in building **secure, scalable cross-platform mobile applications** with REST API integration and production-ready architecture.
- Developed **real-world mobile applications** including a smart complaint management platform with real-time tracking and push notifications, a music streaming app with offline playback, and full-stack platforms serving **1,000+ users**, focusing on performance, reliability, and user-centric design.

SKILLS & TECHNOLOGIES

- **Mobile Development:** React Native (CLI, Expo), TypeScript, JavaScript
- **Frontend:** React.js, Next.js, HTML5, CSS3
- **State Management:** Zustand, Redux Toolkit, Context API
- **Backend & APIs:** Node.js, RESTful APIs, API Integration
- **Database & Backend Services:** Supabase, Appwrite, MySQL
- **Tools & Development:** Git, GitHub, Firebase, Postman, CI/CD, Chrome DevTools
- **Programming Languages:** Java, Python, C++

PROFESSIONAL EXPERIENCE

11 BRD, INDIAN AIR FORCE - Aerospace Maintenance & Production Unit

Technical Intern | OJHAR, Maharashtra | December 2024 – January 2025

- **Automated Excel-based maintenance** and reporting systems, improving component tracking by **40%**, reducing manual work by **50%**, and cutting reporting errors by **30%**.
- Collaborated with Air Force engineers to enhance monitoring of electronic aggregates and improve production visibility for better operational decisions.

COSA-GCOERC

Technical Head | GCOERC, Nashik | Jun 2024 – Aug 2025

- Developed the COSA event platform (cosagcoerc.com) using **React.js** used by **1000+ students**, for registrations in TechGuru 2025 reducing manual effort by **60%** and improving efficiency by 40%.

PROJECTS

- 1) Snap2Fix – Smart Complaint Management System (React Native CLI, TypeScript, Supabase | APK)**
 - Built role-based complaint management app with real-time issue tracking, QR scanning, and media upload.
 - Implemented authentication, REST API integration, and push notifications using Firebase Cloud Messaging.
 - Developed scalable backend using Supabase with CI/CD automation via GitHub Actions.
- 2) LokalMusic – Music Streaming App (React Native Expo, TypeScript | APK)**
 - Developed music streaming application supporting playlists, queue management, and lyrics.
 - Integrated JioSaavn API with background playback and offline downloads.
 - Implemented Zustand state management and smooth UI animations.
- 3) Restaurant Admin App (React Native, TypeScript, Appwrite | GitHub | APK)**
 - Built restaurant management mobile app for menu creation, QR menu generation, and digital menu sharing.
 - Implemented CRUD operations, image uploads, and PDF menu export.
 - Designed reusable UI components and modular navigation architecture.
- 4) Blood-O – Blood Donation Management System (React, TypeScript, Supabase | [Live](#))**
 - Built donor-receiver matching platform with database-driven search and request management.
 - Implemented authentication, real-time database integration, and admin monitoring dashboard.
 - Designed responsive UI using modern full-stack architecture.

EDUCATION

Savitribai Phule Pune University, Nashik, MH | SGPA: 9.4

Bachelor of Computer Engineering
